

I urge you to reject the NAB petition 04-160. I travel constantly in my line of work and use the XM radio broadcasts to know ahead of time what the traffic and weather is in the cities I travel to. this is VALUABLE information that contributes to my success as a businessman. To approve petition 04-160 would be against the public interest. The NAB DOES NOT have an exclusive right to public information such as traffic and weather.
